

SUMMARY

I'm a professional that loves to break and discover flaws on software (I'm very curious). For me, clarity, precision and quality are very, very important aspects that need to be found on a project. Also, I'm a very playful guy =D

SKILLS

- Java
- Python
- C#
- Javascript
- Robot Framework
- Security tests
- Selenium
- Team work
- Test design and architecture
- Working knowledge of Web Automation

LANGUAGES

- Portuguese | Native
- English | Intermediate

EXPERIENCE

QA ENGINEER Eidosmedia Sep 2024 — Present

- #Different test approaches: Desktop Automation.
- #Autoamtion Tools and languages:
 - JavaScript
 - C#
 - TestComplete
 - Ranorex
- #TestManagement: - Zephyr
- #Version Control
 - Git
- #Testing Management and Documentation:
 - Jira
 - Confluence

QA ENGINEER CCMediaNetworks — Portugal Apr 2021 — Aug 2024

- # Different test approaches: Web Interfaces.
- # Manage QA.
- # Create QA Processes
- # Functional Testing
- # Version control, using:
 - GitLab
- # Documentation, using:
 - Confluence
